RESUME OF BROOKS JAVINS LOCKHART

Brooks J. Lockhart was born in Sandyville, West Virginia, in 1920 and attended Marshall University at Huntington, West Virginia, where he majored in Mathematics. He received the degree of Bachelor of Arts in June, 1937. After one year spent as an accountant in the office of the West Virginia State Auditor, he became a graduate student at West Virginia University at Morgantown, where he received the degree of Master of Science in February, 1940.

After one semester of teaching in the high school at Man, West Virginia, he accepted a Graduate Assistantship and enrolled as a graduate student at the University of Illinois. He received the degree of Doctor of Philosophy in October, 1943, after completing a research project in Algebraic Geometry under the direction of Professor Arthur B. Coble.

In the years 1943-44 and 1946-48 he was an Instructor in Mathematics at the University of Michigan. During 1944-46 he served as an officer in the U. S. Navy with duty at the Computation Laboratory, Harvard University, where he was involved in producing the Manual of Operation for the Automatic Sequence Controlled Calculator and the early volumes of the Tables of Bessel Functions.

He joined the faculty of the U. S. Naval Postgraduate School in 1948 as an Assistant Professor of Mathematics. He was promoted to Professor of Mathematics in 1955, to Dean of Admissions in 1962, and to Dean of Curricula in 1966. His responsibilities include development of curricula, preparation of class schedules, editing the School catalogue, and directing the Office of Admissions and Office of Registrar.

He is a member of Sigma Xi, Chi Beta Phi, Kappa Delta Pi, and the Mathematical Association of America. He has served terms as Vice-Chairman, Chairman and Secretary-Treasurer of the Northern California Section of the Mathematical Association.

PUBLICATIONS OF B. J. LOCKHART

OPEN LITERATURE

Books; published papers, notes, letters.

1. Chapter 6 of a book
Manual of Operation for the Automatic Sequence
Controlled Calculator IP
Harvard Univ. Press, 1946
2. Shock Produced by a Spherical Piston of Radius a (t) P
J. Appl. Phys., 27, 1345-1351 (1956)
3. The Mathematical Association of America, January Meeting
of the Northern California Section L
Am. Math. Monthly, 69, 459-460 (1962)
4. The Mathematical Association of America, January Meeting
of the Northern California Section L
Am. Math. Monthly, 70, 598 (1963)
5. The Mathematical Association of America, February Meet-
ing of the Northern California Section L
Am. Math. Monthly, 71, 716 (1964)
